ALMA MATER

"TO DENISON"

To Denison, we raise our song
 Fair College on the hill,
 The name that sets our souls on fire,
 And makes our senses thrill,
 To Denison, my Denison,
 In praise our voices swell,
 The scene of happy college days,
 The home we love so well.

Written by V.E. Field, Class of 1903, and led by senior members of Hilltoppers, Ladies Night Out, Tehillah and DUWop, Denison's *a cappella* groups

RECESSIONAL

PROGRAM NOTES

Graduates are listed alphabetically under the degree they are receiving, Bachelor of Fine Arts, Bachelor of Science or Bachelor of Arts. In some cases, a student may earn more than one bachelor's degree during his or her undergraduate years. The student's major(s) are listed to the right of his or her hometown, with a concentration indicated within parentheses. Directly below each name is the student's hometown. Titles of yearlong Senior Theses or Senior Creative Projects judged to merit recognition appear in italics underneath the hometown, along with the name and terminal degree of the faculty supervisor.

President's Medalists wear gold medals awarded in recognition of their status. Student members of Mortar Board, a national honor society that recognizes college seniors for their achievements in scholarship, leadership and service, wear gold tassels on their caps.

Music for the program was coordinated by the Denison Department of Music. Today's processions are selections chosen from *The Water Music* (1717) and *Music for the Royal Fireworks* (1749) by George Frideric Handel (1685-1759). *A Fanfare for the Class of 2013* is an original composition by Associate Professor of Music Ching-chu Hu, previously played at their induction in August 2009. Musical selections are being performed by Taylor Arend '15, Jianda Bai '15, Michael Bonner '16, Adam Coon '15, Taylor Hollowell '15, Christina Hsu '16, Kayleigh Humphries '16, MacKenzie Maynard '15, Julia Miller '15, Ali (Alexandra) Richardson '16, Antrim Ross '16, Cole Rumora '15, James Smith '14, Jed Hudson, trombone; Jim Van Reeth, violin; Todd Fessler and Ross Runyan, trumpet; Tony Zilincik, tuba. The commencement orchestra is conducted by Associate Professor of Music Andrew Carlson.

The Chapel bell ringer is Noah Dixon '14. Parents or friends taking pictures of graduates receiving diplomas are asked to use the special section designated for this purpose.

Flowers for the program are provided by Village Flower Basket. Interpretive signing is done by Hallenross & Associates, LLC. The program concludes when the platform party and faculty have recessed. The audience and graduates are asked to remain seated during the recessional. If Commencement is held in the Mitchell Center, the graduates will also recess.

ACADEMIC REGALIA

The academic costume which makes the Commencement procession so colorful is more than 800 years old, dating back to the days when students were members of the minor clergy and wore monkish gowns and hoods. Today, the hood is used only as an ornament. It is lined with the colors of the university conferring the degree: the border in which it is edged indicates the scholar's field. The colors seen in today's Denison procession and the fields they represent are: Dark Blue-Philosophy; White-Arts, Letters, the Humanities; Golden Yellow-Science; Light Blue-Education; Brown-Fine Arts; Pink-Music; Silver Gray-Oratory (Speech); Scarlet-Theology; Lemon Yellow-Library Science; Sage Green-Physical Education; Drab-Commerce, Accountancy, Business.

ACADEMIC MACE

The academic mace traces its origins to the earliest universities of medieval Europe. Today the mace connects the modern colleges and universities to the ancient heritage of higher education and represents the independence of thought cultivated by them. Denison's mace was commissioned in 2005 by President Knobel as a visible reminder of the long history of learning at the college. It was designed and crafted by Iowa folk artist Harley Refsal and is made of walnut and silver. The walnut was harvested from one of the historic trees surrounding the original Talbot Hall (1870-1967). The mace is carried at the head of the faculty procession by the Chairperson of the Faculty.

DENISON BELL

The Denison Bell was forged of nickel and silver in 1855, just as the college was moving from its original site south of Raccoon Creek to its present location. Today it is used to open and close formal ceremonies such as the Induction of each new class, Commencement and Awards Convocations.

The oldest national academic honorary society in the United States, Phi Beta Kappa was founded in 1776 at the College of William and Mary in Williamsburg, Va. Phi Beta Kappa seeks to promote intellectual discipline and achievement within the liberal arts. The Theta of Ohio chapter was established at Denison in 1910 to recognize outstanding scholarship among seniors and exceptional juniors.

RETIRING FACULTY

TODD FEIL

PROFESSOR EMERITUS OF MATHEMATICS AND COMPUTER SCIENCE

TODD FEIL is a professor who delights in making mathematics and computer science both educational and fun for his students so they can enjoy those challenging subjects as much as he does.

He joined the Denison faculty in 1982 as an Assistant Professor in the Mathematics and Computer Science Department. Feil earned a Bachelor of Arts degree in Mathematics from Millikin University (Decatur, Ill.) in 1973, and Master of Science in Mathematics (1975), Master of Science in Computer Science (1980) and Doctor of Philosophy in Mathematics (1980) degrees from Bowling Green State University (Bowling Green, Ohio).

Feil served as chair of the Mathematics and Computer Science department from 1990-1995, 2003-2006 and the Spring semester of 2007. He also served as Denison's Chair of the Faculty in 2004-2005.

Feil created the Denison Spring Programming Contest in 1991 and has headed it for all its 24 years. This competition attracts undergraduate teams from colleges in Ohio and neighboring states. For the past 13 years, he also has been head judge of the ACM regional programming contest, an international competition worldwide that attracts thousands of undergraduates in teams of three. Denison's region includes Ohio, Michigan, western Pennsylvania and western Ontario

and typically involves around 140 teams. The top three teams compete in the world finals, held this year in Saint Petersburg, Russia, which Feil will attend this summer.

He revised *Elementary Cryptanalysis*, 2nd edition (2009), published by Mathematical Society of America, updating this book by Abraham Sinkov, originally published in 1966. Feil revised the book for the technological age by updating the language and adding two new chapters on modern methods. His other books are: *Lattice-Order Groups* by Todd Feil and Marlow Anderson, published by D. Reidel (1988); *A First Course in Abstract Algebra: Rings, Groups, and Fields*, 2nd edition, published by Chapman & Hall/CRC Press (2005) by Marlow Anderson and Todd Feil and updated in December, 2008; and *Essential Discrete Mathematics for Computer Science*, published by Prentice Hall (2003) by Todd Feil and Joan Krone.

Feil is an avid cyclist and has been to Europe a few times to try some of the big climbs. He is also a fan of the Columbus Blue Jackets and Cleveland Indians, but has chosen the Aston Villa football team of the English Premier League as his football favorite.

He and his wife Robin plan to stay in Granville, visit their daughters Halley and Emma who are both teachers, and look forward to visiting with former Denison students who return to Denison for reunions.

LYN SEILS ROBERTSON

ASSOCIATE PROFESSOR EMERITA OF EDUCATION

Lyn Robertson's 34 years at Denison have been busy ones, filled with teaching more than 20 different classes about literacy, critical pedagogy, women's studies and positive social change. She also has found time for service as chair of the Department of Education for 13 years, Director of The Alford Center for Service Learning since 2010, as a Boston Posse V and VISTA Mentor, Director of Denison's Call to College Program, Director of Denison's I Know I Can, Acting Director of Women's Studies and Chair of the Faculty.

Robertson was born in Boston and lived in Texas before her family moved to Ohio in the 1960s. She graduated from Denison in 1970 with a B.A. in English and an Ohio Teaching Certificate in English and Physical Education. She earned an M.A. degree in Education: Reading and Language from Northwestern University in 1976 and a Ph.D. in Education: Reading and Cognitive Psychology from Ohio State University in 1988.

She joined Denison's faculty in 1979 as an Assistant Dean for Educational Services and Assistant Professor. She was named Associate Professor in 1993, Director of Field Experiences from 1987 to 1995, and has been a Faculty Adviser since 1988.

In her role as Director of Service Learning, Robertson has encouraged Denison students and faculty to spend time with people in Newark, learning about their lives and experience and working alongside them, in order to integrate what they know intellectually with what they experience in the world beyond the campus.

She is President of The Alexander Graham Bell Academy for Listening and Spoken Language, an international certifying body for Listening and Spoken Language Specialists who work with children with deafness who are learning to listen and speak. She is a member of Kappa Delta Pi International Honor Society and has been its Denison adviser since 1987.

Robertson's research began in literacy and in feminist pedagogy and gradually became more centered in the development of literacy in children with hearing loss. She has written two books, *Literacy and Deafness: Listening and Spoken Language* and *Literacy Learning for Children who are Deaf or Hard of Hearing* (Plural Publishing), as well as articles about listening and reading. She is just finishing a 2nd edition of *Literacy and Deafness*.

Robertson also has been active in community service. She served two terms as Mayor of the Village of Granville from 1999 to 2001 and 2003 to 2005. She was a member of the Granville Village Council from 1997-2005, President of the Land of Legend Council International Reading Association, Chair of the Granville Planning Commission and a member of the Woodlands Board of Newark.

Robertson and her husband Mike are the parents of daughter Annie Robertson Zaman and son Mark, who live in New York City and Boston with their spouses. They are celebrating the arrival of Annie and Shehzaad's daughter Maia Julia who was born in March. Robertson plans to improve both her Spanish and photography, to contribute to the community, and to travel, particularly to New York to visit her granddaughter.

DALE THOMAS KNOBEL
PRESIDENT EMERITUS AND PROFESSOR OF HISTORY EMERITUS
DOCTOR OF LETTERS, HONORIS CAUSA

On June 30, President Dale Knobel, an historian and educator, will complete 15 years of leadership at Denison, taking the college to new heights as a nationally-recognized, selective, residential liberal arts college. Denison's 19th president, he has served the second longest term in the college's history after that of A. Blair Knapp (1951-1968).

Throughout his presidency, Dr. Knobel has been an advocate for a participatory learning environment, close student-faculty engagement, and the importance of learning and growing opportunities outside the classroom on a residential campus. He has encouraged opportunities for students to tackle their own individual scholarly projects, whether in the arts, scientific inquiry, the humanities, or social sciences, with close faculty mentorship.

Among the leading themes of President Knobel's tenure has been investment in students and faculty. Knobel shares, "I am proud of Denison's ability to attract academically able students, which has brought to the college a student body with more uniformly strong academic credentials than ever before. At the same time, this student body is broadly representative in terms of such characteristics as race, nationality, religion, socioeconomic background, and geographical origin, essential features for interactive learning on a campus where students both live and learn together. In classes that are small and participatory, students who come to us with a wide range of life experiences, perspectives, and world views create a special educational magic at Denison." The president is proud not only of the students the college enrolls, but of the students Denison retains to graduation. During Dr. Knobel's presidency, student retention has moved the college into the leading ranks in higher education.

Investment in Denison faculty over the last 15 years has led to 30 new permanent faculty positions, a majority of them underwritten in perpetuity by new endowments. The student-faculty ratio has been reduced to 10 to 1, and faculty have been provided additional resources to support their growth as teachers and scholars.

Key to these achievements has been careful financial management as well as remarkable philanthropic support by alumni and friends of Denison. Continued collaboration among faculty, staff, and Trustees has permitted the college to sustain more than 55 years of balanced budgets. President Knobel praises the Denison Board of Trustees and its Investment Committee for its outstanding stewardship of the Denison endowment, which has grown from \$300 million to nearly \$700 million during his presidency.

President Knobel began a strategic planning process soon after his arrival in 1998 to create a vision for Denison's future, committing the college to securing its place among the nation's leading undergraduate colleges of arts and sciences. This vision paved the way for the Higher Ground Campaign that far surpassed its goal, raising \$178 million to support Denison people, programs, and facilities. In the aftermath of the campaign, additional multi-million dollar gifts have made possible both major building projects and additional faculty endowments. Each year, philanthropic giving to Denison now totals between \$15 and \$20 million.

At the beginning of his presidency Dr. Knobel assured the faculty and the Trustees that they should not expect him to be a "building president," but time proved him wrong. He quickly concluded that even well-maintained older buildings don't always meet today's needs. Along with creating handsome new facilities like the Burton D. Morgan Center and the Samson Talbot Hall of Biological Science flanking the Reese-Shackelford Common as well as numerous apartment-style residence halls, the college under President Knobel's leadership "recycled" and renewed many older buildings. Historic Cleveland Hall became the modern Bryant Arts Center, Ebaugh Chemistry Laboratories was enlarged and rebuilt, the 1940s Life Science Building became today's Higley Hall, significant renovations took place in major classroom buildings like Knapp and Fellows, and Chamberlin Hall emerged from a historic fraternity building. The newly expanded Mitchell Center now houses the Trumbull Aquatics Center, a spacious natatorium with a 50-meter Olympic pool and separate diving pool, and the bi-level 80,000 square foot Crown Fitness Center, which will be completed this summer.

A native of northeastern Ohio, President Knobel graduated from Hudson High School in 1967 along with Tina Jamieson, who would become his wife. He enrolled as a freshman at Denison, and Tina headed for Heidelberg College in Tiffin, Ohio. Finding Granville and Hudson to be exceedingly similar, and at the time, homogeneous places, he transferred to Yale University for his sophomore year. He earned a B.A. *cum laude* from Yale in 1971, a week after Tina graduated from Heidelberg, and the couple was married in Hudson, Ohio two weeks later. They moved to Evanston, Illinois, where he entered doctoral study at Northwestern University. Their daughter Allison was born in Evanston in 1974.

In 1976, Dale Knobel earned the Ph.D. in history at Northwestern and joined the faculty for his first year of teaching. In 1977, he was appointed to the faculty of history at Texas A&M University, where he subsequently earned tenure. The Knobels' son Matthew was born in Bryan-College Station, Texas in 1979. In 1987, he was appointed Director of the University Honors Program and became a member of Texas A&M's Academic Operations Council of undergraduate deans. In 1992, he was named the university's Executive Director of Honors Programs and Academic Scholarships. That same year, Dale and Tina suffered the immeasurable loss of twelve-year-old Matthew in an automobile accident. During 1995-96, Dr. Knobel was asked to serve Texas A&M as Associate Provost for Undergraduate Programs. While at Texas A&M, he received the university's Faculty Distinguished Achievement Award.

After 20 years of service in research universities, in 1996 Dr. Knobel was recruited as Provost and Dean of the Faculty by Southwestern University, Texas's oldest private liberal arts college, located in Georgetown, north of Austin. After just two years at Southwestern, Denison welcomed President and Mrs. Knobel back to Ohio, to the college on the hill, and to their new home in Granville, Monomoy Place. Since then, in addition to their responsibilities at Denison, both have been deeply involved in Granville, Licking County, and Ohio civic activities, raising funds for charity and serving as leaders at The Works: Ohio Center for History, Art, & Technology; the Newark Midland Theater; the Newark-Granville Symphony Orchestra; the Center for Disability Services; the Granville Historical Society; the Robbins Hunter Museum, the Think Pink Fundraiser for Breast Cancer; the Granville Centenary United Methodist Church; the Lakeside Chautauqua Association; the Granville Garden Club; and PEO (the Women's Philanthropic Educational Organization). Just this spring, President Knobel was honored by the Granville Rotary Club and the Granville Chamber of Commerce for his community engagement.

Active in national higher education associations and activities, President Knobel was named last October as recipient of the Chief Executive Leadership Award by the Council for Advancement and Support of Education, District V. The award cited his "outstanding leadership and service in support of education" and noted that "During Knobel's 14-year tenure as president, Denison has reached and surpassed important milestones in enrollment, advancement, and expanded facilities, reflecting the extraordinary quality of the college's faculty and students, and continually improving on Denison's mission as a top-tier residential institution of the arts and sciences." Dr. Knobel has served as an officer of the National Association of Independent Colleges and Universities, as a member of the President's Council of NCAA Division III, as Chair of the Great Lakes Colleges Association, and as President of the North Coast Athletic Conference. He has been an officer of both the Association of Independent Colleges and Universities of Ohio and the Ohio Foundation of Independent Colleges.

In retirement, the Knobels are moving back to Georgetown, Texas, to a new home overlooking a tributary of the San Gabriel River. Already the author of two books in American History, *Paddy and the Republic: Ethnicity and Nationality in Antebellum America* (Wesleyan University Press, 1985) and *'American for the Americans': A History of the Nativist Movement in the United States* (Twayne/Simon & Schuster, 1996), and co-author of another, *Prejudice* (Harvard University Press, 1982), as well as of many articles in scholarly journals, President Knobel wants to return to writing as a historian. He plans to complete two other books already begun, both on aspects of American ethnic and race relations in the nineteenth century.

Dale and Tina also will have the joy of moving to be near their grandsons, Grant Matthew, who will be six in June, and Connor, who just turned four, who live west of Houston with their father Daron Sitton. The Knobel's daughter Allison succumbed to breast cancer in 2011, and Dale and Tina are looking forward to spending more time with the boys and their son-in-law.

During the Denison Board of Trustees meeting in April, the official portrait of the 19th president, painted by New England artist Robert Anderson, was unveiled and hung in the Presidents' Room of the William Howard Doane Library. In addition, the former Welsh Hills Room in the Burton D. Morgan Center has been renamed Knobel Hall in honor of President and Mrs. Knobel. They will be genuinely missed by many, but never forgotten.
