ALMA MATER

"To Denison"

To Denison, we raise our song,
Fair College on the hill,
The name that sets our souls on fire,
And makes our senses thrill.
To Denison, my Denison,
In praise our voices swell,
The scenes of happy college days,
The home we love so well.

Written by V.E. Field, Class of 1903, and led by senior members of the Denison Hilltoppers, Ladies' Night Out, Tehillah and DU-Wop, Denison's *a cappella* groups

RECESSIONAL

PROGRAM NOTES

Graduates are listed alphabetically under the degree they are receiving, Bachelor of Fine Arts, Bachelor of Science or Bachelor of Arts. In some cases, a student may earn more than one bachelor's degree during his or her undergraduate years. The student's major(s) are listed to the right of his or her hometown, with a concentration indicated within parentheses. Directly below each name is the student's hometown. Titles of yearlong Senior Theses or Senior Creative Projects judged to merit recognition appear in italics underneath the hometown, along with the name and terminal degree of the faculty supervisor.

President's Medalists wear gold medals awarded in recognition of their status. Students graduating *summa cum laude*, *magna cum laude* and *cum laude* Latin honors wear gold, silver and red tassels respectively on their caps. Student members of Mortar Board, a national honor society that recognizes college seniors for their achievements in scholarship, leadership and service, also wear gold tassels on their caps.

Music for the program was coordinated by the Denison Department of Music. Today's processions are selections chosen from *The Water Music* (1717) and *Music for the Royal Fireworks* (1749) by George Frideric Handel (1685-1759). *Fanfare for the Class of 2019* is an original composition by Associate Professor of Music HyeKyung Lee, B.M., M.M., D.M.A. Musical selections are being performed by Clem Pearson '20, violin; Bebe Blumenthal '20, violin; Katherine Ji '22, violin; Emily Waters '22, violin; James Van Reeth, violin; Emily Muckle '21, viola; Kate Zimmerman '20, viola; Kenzie Mick

'20, viola; Griffin Jeanette '20, cello; Emily Ji '22, cello; Angela Sommerer '20, bass; Whitney Davis, trumpet; Julian Davis, trumpet; Allyson Krupa '21, horn; Ryan Hamilton, trombone; Peter Woodruff, tuba. The commencement orchestra is conducted by Assistant Professor of Music Philip Rudd.

Parents or friends taking pictures of graduates receiving diplomas are asked to use the special section designated for this purpose.

Flowers for the program are provided by Village Flower Basket. Interpretive signing is done by Hallenross and Associates, LLC. The program concludes when the platform party and faculty have recessed. The audience and graduates are asked to remain seated during the recessional.

ACADEMIC REGALIA

The academic costume which makes the Commencement procession so colorful is more than 800 years old, dating back to the days when students were members of the minor clergy and wore monkish gowns and hoods. Today, the hood is used only as an ornament. It is lined with the colors of the university conferring the degree: the border in which it is edged indicates the scholar's field. The colors seen in today's Denison procession and the fields they represent are: Dark Blue: Philosophy; White: Humanities; Golden Yellow: Science; Light Blue: Education; Brown: Fine Arts; Pink: Music; Silver Gray: Oratory (Speech); Scarlet: Theology; Lemon Yellow: Library Science; Sage Green: Physical Education; Drab: Commerce, Accountancy, Business.

The oldest national academic honorary society in the United States, Phi Beta Kappa was founded in 1776 at the College of William and Mary in Williamsburg, Virginia. Phi Beta Kappa seeks to promote intellectual discipline and achievement within the liberal arts. The Theta of Ohio chapter was established at Denison in 1910 to recognize outstanding scholarship among seniors and exceptional juniors.

RETIRING FACULTY

DAVID ROBERT BUSSAN '81

B.A. DENISON UNIVERSITY; M.F.A., CALIFORNIA INSTITUTE OF THE ARTS
PROFESSOR EMERITUS OF CINEMA

Dave Bussan has always considered himself to be a reluctant academic. While he continued to make films through the years as a scholarly endeavor, his passion has been working with students both within and outside of the classroom. "I've had so many terrific students throughout my time at Denison. I have thoroughly enjoyed working alongside them."

But the Department of Cinema is clearly a big part of Dave's legacy on the Denison campus. After receiving tenure in what was then the Department of Theatre and Cinema in 1997, he approached Provost Charlie Morris about cinema and theatre dividing into separate departments. The Department of Cinema was officially born in the fall of 1998, and while he was the department chair for more than 10 years, this fledgling department expanded from just two faculty lines to four and hired its first full-time equipment manager.

For Bussan, who graduated from Denison in 1981, his experiences here have gathered in storylines from the past into new views of what's yet to come. "As an alum, I had the privilege of teaching together with my undergraduate professor, Dr. R. Elliott Stout," he notes. "Just the two of us comprised the cinema faculty at Denison for more than a decade. In that time, Elliott became both my mentor and friend. I will always cherish his memory and what he did for me both professionally and personally."

With an increase in both interest and expectations regarding international experiences among today's students, Dave was able to develop unique educational adventures on some very distant stages. "On five separate occasions, I've traveled with students to Istanbul and Northern Cyprus. The first trip was on the occasion of Denison's last January Term in 1988." Working with a 6,000-year span of

history there, he has opened up new fields of vision and appreciation for those study tours: "I've always thoroughly enjoyed taking students to these two destinations and introducing them to what Elliott had introduced me to back in the mid-1980s."

As a graduate of the California Institute of the Arts with an M.F.A. in 1985, Bussan was artist-in-residence for Denison's theatre and cinema department in 1985 before joining the faculty in 1987. In that same year, he received an Ohio Arts Council Individual Artist Fellowship. For many years, he was the film critic for Columbus Alive magazine. His articles on subjects such as "gazing globes" and Cy Young have appeared in the Wall Street Journal, the Chicago Tribune, and the Columbus Dispatch.

His portfolio of creative film includes works in documentary, memoir, narrative, and experimental films. He recently completed a short documentary entitled "Future Visions of Over the Rhine," which explores the economic revival and gentrification of this poverty-stricken neighborhood in downtown Cincinnati. His current work in progress is "Art Bomb!," a documentary concerning Ohio artist Charles Van Ness and his uniquely stylized sculptures.

And perhaps unavoidably, we have to share the story he told about our Commencement speaker for this year's class: "A year or so after she graduated, Jennifer Garner was visiting campus, and I ran into her in the theatre office. She asked me if I'd like to have lunch with her the following day, and I agreed. Embarrassingly, I forgot about our lunch date and stood Jen up. That was the last time I saw her before this Commencement weekend."

We hope they can finally meet up again today!

RETIRING FACULTY

THOMAS DAVID SCHULTZ

A.B., UNIVERSITY OF CHICAGO; PH.D., UNIVERSITY OF TEXAS
PROFESSOR EMERITUS OF BIOLOGY

If you were told that Tom Schultz was recognized with the Charles A. Brickman Teaching Excellence Award in 2009, and you knew that it was one of the highest honors given by Denison to a faculty member, chosen by a committee of faculty peers, and awarded for dedication to students and student learning, you would, no doubt, be impressed.

It might add some depth to the breadth of that honor to also know that Tom is known far and wide on the Denison campus, beyond the confines of the Biology Department, for his spirited and (as far as we know) meticulously precise performance of the mating dance of the blue-footed booby.

He also has a vivid, bright-red metaphor about learning he likes to use. “I have had the perfect job in that I am paid to expose myself to new ideas and share them with students, and help them to develop a “Swiss Army Knife” of critical thinking skills.” Whether helping students put a sharp edge on their reasoning, or to take a screwdriver’s twist in connecting across disciplines, that “multi-tool” approach to teaching and learning has served Tom and his students well. “The challenge of being exposed to a new idea, questioning it, evaluating it, and even testing it, fulfills me. I especially enjoy making connections between seemingly disparate ideas or concepts in different disciplines,” especially, he adds, “an important ability in a time when clear boundaries between the sciences are becoming blurred.”

A member of the Denison faculty since 1990, Tom served as chair of the Biology Department from 1998 to 2001. “The accomplishment of which I am most proud was the planning and construction of Samson Talbot Hall of Biological Science, which opened in 2004,” he states.

“This was coupled with a revision of the curriculum, and the building was specifically designed by faculty to serve our pedagogical goals and meet our research needs. I also am pleased to have contributed to the expansion and diversification of the biology faculty.”

Tom also helped to expand the Denison University Biological Reserve, as director from 1993 to 2003. During his leadership, the Polly Anderson Field Station was constructed, 90 acres were added to the reserve, and a trail system and management protocols were implemented. “It has been a special goal of mine to inventory and document the biodiversity of the reserve,” he points out. “With the help of students, more than 1,200 species of plants, animals, and fungi have been recorded. In addition, we have built an insect collection of well over 10,000 specimens.”

In reflecting on his early career interests in both research and teaching, Tom says “Denison turned out to be the perfect fit. I could not imagine a better job than the one I have had. I have been able to explore and teach every subject I’ve ever wanted to.” Also proud of how, over the past 10 years, the Biology Department at Denison has expanded and blossomed, he asserts, “into one of the premier undergraduate programs on campus and, I believe, in the country. And I cannot imagine a better, more dedicated group of colleagues than those I am leaving behind. Our collaboration and shared sense of purpose have been extraordinary.”

In June, Tom and his wife, Janet, will be moving to Fort Collins, Colo. Tom plans to spend his retirement engaged in traveling, fly fishing, nature photography, and living the life of a naturalist.

HONORARY DEGREE RECIPIENT

DOCTOR OF HUMANE LETTERS, HONORIS CAUSA

JENNIFER ANNE GARNER '94
B.F.A., DENISON UNIVERSITY

Jennifer Garner, a member of the Denison Class of 1994, is an internationally acclaimed actor and advocate for children, serving as a trustee for Save the Children since 2008. She also recently co-founded the organic food company Once Upon a Farm with the goal of providing children with high-quality, nutritious food that is produced using sustainable methods.

Through her work on stage and screen, Garner has inspired and enlightened, entertained and educated. She has given us characters who help bridge our difference and bring understanding to a complex world. Garner studied theatre at Denison and quickly onboarded into her field, working in community productions before heading to New York, then Los Angeles and her first major role as Sydney Bristow in the hit television show *Alias*, in 2001, for which she received four consecutive Emmy nominations for Outstanding Lead Actress in a Drama Series. She also earned four Golden Globe nominations for her role in *Alias*, winning the award for Best Performance by an Actress in a Television Series – Drama in 2002. She also was nominated for three Screen Actors Guild Awards for *Alias* and her portrayal of Dr. Eve Saks in *The Dallas Buyers Club*, winning for the former in 2005.

Garner's understanding of the afflictions of childhood poverty led her to become an advocate for Save the Children, an organization that is on the front lines of emergency and humanitarian responses around the world. In her work for Save the Children, Garner has studied the issues, visited children in their homes, and testified before Congress.

Garner's work focusing on children has expanded. She was an advocate for the Children's Defense Fund in New Orleans after Hurricane Katrina, a spokesperson for the American Lung Association's Faces of Influenza campaign, and a prominent advocate and spokesperson for California Senate Bill 606, which became law in 2013 and protects the privacy of children in California. In addition, Garner contributed the essay, "Turning Poverty Around: Training Parents to Help Their Kids" to *The Shriver Report: A Woman's Nation Pushes Back from the Brink*, edited by Maria Shriver and published by the Center for American Progress in 2014.
